

What is an Internal Medicine doctor?

Internal Medicine doctors focus on adult medicine and have had special study and training focusing on the prevention and treatment of adult disease. Internists care for their patients for life - from their teen years through old age. At least three of their seven or more years of medical school and postgraduate training are dedicated to learning how to prevent, diagnose and treat diseases that affect adults. Internists are sometimes referred to as the "doctor's doctor", because they are often called upon to act as consultants to other physicians to help solve puzzling diagnostic problems.

Office Hours and Appointments

Our office is open Monday through Friday from 8:00 am to 5:00 pm. To make an appointment at any ADC Internal medicine office please call 512/901-4059. All office phones are answered from 8:00 am to 12:30 pm and from 1:30 pm to 5:00 pm. Established patients may choose to request an appointment using *MyADC*, ADC's secure online appointment system. Go to *ADClinic.com* and select *MyADC* for more information.

When you arrive for your appointment please check-in with the front desk. If you are a new patient, or if you are scheduled for your annual visit, please arrive 30 minutes early. Annual and new patient forms are available on the Internal Medicine web page at *ADClinic.com*. Remember to bring your insurance card and identification with you to each visit and notify us of any changes in your address, phone number and/or insurance information.

In order to assist your physician, patients are asked to bring all medications (prescription and over-the-counter) to each visit.

ADClinic.com

Cancellations

Please call if you are unable to keep your appointment, or if you are going to be late. If you are late, you may be asked to reschedule.

Prescription Refill

If you have any questions concerning your condition, treatment, or medications, please call your physician's office. If you need a medication refill, call your pharmacy Monday through Friday, before 3:00 pm. Please allow 3 business days for the refill to be approved.

Payment for Services

All co-pays are due before seeing your physician. Payments for other services are expected at the time of service unless prior arrangements have been made. If you have any questions please contact our Business Services Department at 512/901-4600.

We would be glad to provide you with a paid receipt which contains all the necessary information required by your insurance company.

Referrals

Most managed care plans require a referral from your primary care physician before making an appointment with a specialty care provider. Referral authorizations may take 48-72 hours to process, so please contact our offices as soon as the need for a referral arises.

Blood Pressure Checks and Injections

If the nurse needs to check your blood pressure or give you an injection, please make an appointment by calling your doctor's nurse to arrange a time that is convenient or schedule the appointment at the time of your visit with the physician.

Please give us a call before you drop by the office. This will help us plan for your visit and minimize your wait. Also, remember to check-in with the front desk. They will notify the nurse of your arrival.

EasyCare

When you need to feel better fast, ADC's *EasyCare* offers walk-in and same-day appointments for adults, adolescents and children over 8 years of age.

EasyCare hours* are:

- 8:00 AM - 8:00 PM, Monday - Friday
